<https://ziyaazz.github.io/portofolio-sitifauziyahanrami/> | Jalan Kayu Mahoni

Electronic Systems Engineering Technology student with a strong interest in electronics, embedded systems, robotics, and industrial automation. Experienced in microcontroller programming, electronic circuit design, sensor integration, and system development and testing. Actively involved in student organizations and a variety of engineering projects, with strong problem-solving, teamwork, communication, and adaptability skills. Motivated to keep developing technical skills and to gain experience in an industrial environment.

Education

Politeknik Caltex Riau – Pekanbaru

Diploma in Electronic Systems Engineering Technology

GPA: 3.84/4.00

Aug 2024 – Aug 2028 (Expected)

- **Community Service 2026:** Contributed to drafting the activity proposal “**Creative Enterprise: Robot Kits with Integrated Competitions and an Exclusive Mentoring System to Improve National Technology Achievement**”, with a focus on developing the activity concept and the mentoring system.
- **Community Service 2026:** Took part in planning and drafting the activity proposal “**Improving Technology Competence through Mentoring in a Self-Directed, Kit-Based Robotics Extracurricular at SMA IT Plus Bazma Brilliant Dumai**” together with lecturers.
- **Community Service 2025:** Contributed to developing the activity concept and drafting the proposal “**Empowering Young Mothers and Expectant Mothers through First 1,000 Days of Life Education to Prevent Stunting in Rumbai District**”.
- **Community Service 2025:** Served as an instructor in “**Building Smart Technology Literacy through Training for Female Students of Darussalam Al-Islami Islamic Boarding School**”, introducing IoT and guiding the students through basic hands-on implementation.
- **Community Service 2025:** Served as an instructor in “**Integrating Robotics Engineering into the Pancasila Student Profile Strengthening Project at SMAN 16 Pekanbaru**”, delivering robotics material and guiding participants through technology-based, hands-on learning.
- **Mentor, Indonesian Student Research Olympiad (OPSI) at SMA Witama Pekanbaru, 2025:** Guided students in preparing their research and developing scientific papers for the OPSI competition.

Organizational Experience & Activities

- Electronics Engineering Student Association (HIMIKA) – Politeknik Caltex Riau
- 2024–Present
- **Staff, Ministry of Communication and Information (Kominfo) (2025–2026)** — Managed information media, publications, documentation, and internal organizational communication.
 - **Marketing, Service Center (2025–Present)** — Created promotional designs and helped publicize Service Center offerings.
 - **Documentation Coordinator – HIMIKA General Assembly (2025)** — Coordinated documentation throughout the event.
 - **Event Division – ELKA FESTIVAL (2025)** — Helped prepare and run the event and competitions involving high school students.
- Intelligent Control by Human (ICON) Student Activity Unit – Politeknik Caltex Riau
- Sep 2024–Jul 2026
- **Treasurer (2025–2026)** — Managed income and expenditures and prepared the organization’s financial reports.
 - **Organizing Committee Chair – Line Follower (2025)** — Planned the event, coordinated across divisions, and ensured it ran smoothly.
 - **Treasurer – Robosumo (2025)** — Managed the budget, recorded transactions, and prepared the event’s financial report.
 - **Logistics Division (2024–2025)** — Inventoried and prepared equipment to keep the organization’s activities running smoothly.
 - **Documentation Division – RoboArm (2025)** — Documented the event and created publicity designs to support it.
 - **Event Division – Roboschool (2024)** — Helped coordinate the event program and technical execution of a robotics education event for high school students.
- Industrial Technology Department (JTIN) – Politeknik Caltex Riau
- **Documentation Division – JTIN EXPO (2025)** — Documented the event and created publicity designs for the event’s needs.

Projects

- **Analog Line Follower (2025):** Designed and built a line-following robot using an analog circuit without a microcontroller, with LDR sensors for line detection and motor control.
- **Up Counter 7-Segment with Servo (2026):** A microcontroller-based system that counts incrementally (up counter) and shows the value on a 7-segment display, while driving a servo motor as an automatic output once a specific count is reached.
- **Autonomous Tri OmniWheel Transporter Robot (2026):** Contributed to the Movement division, designing and programming the Raspberry Pi-based robot movement system, integrating sensors, and testing autonomous motion and teleoperation.

- **Photoplethysmography (PPG)-Based Heart Rate Monitoring System (2026):** Designed a real-time heart rate monitoring system using an ESP32-C3, a MAX30102 sensor, and an SSD1306 OLED display, with data sent over WiFi (TCP) to a LabVIEW dashboard that plots the waveform and logs data to CSV/Excel files.
- **Aero Pendulum (2026):** An Arduino Uno-based pendulum control system with a PID controller designed in MATLAB Simulink, using a potentiometer for position feedback.

Skills

Hard Skills

- **Programming:** Python, C/C++, Arduino & Microcontroller Programming
- **Embedded Systems & IoT:** Embedded Systems, Internet of Things (IoT), Sensor Integration, Data Acquisition
- **Electronics & Hardware:** Electronics & Circuit Design, PCB Design, Motor Control
- **Industrial Automation:** PLC & Industrial Automation, SCADA
- **Data & Documentation:** Basic Data Analysis, Technical Documentation

Software & Tools

- **Programming & IDE:** VS Code, Arduino IDE, CodeVisionAVR, CodeBlocks, Thonny, Google Colab
- **Design & Simulation:** Eagle PCB, Proteus, MATLAB/Simulink, FluidSIM
- **Industrial Automation:** SoMachine Basic, Wonderware InTouch, LabVIEW
- **IoT Platform:** Blynk, ThingSpeak, ThingsBoard, MIT App Inventor
- **Web & Database:** XAMPP/phpMyAdmin
- **Others:** Microsoft Office, Canva

Soft Skills: Teamwork & Collaboration, Communication Skills, Problem Solving, Critical Thinking, Analytical Thinking, Time Management, Leadership, Adaptability, Public Speaking, Project Management, Responsibility & Discipline
